SHREE SWAMINARAYAN  
COLLEGE OF TECHNOLOGY AND  
MANAGEMENT

Bachelor of Computer Application

#### 2024 -2027

FRONT-END (HTML, CSS,  
JAVASCRIPT, REACT) & BACK-  
END (NODE.JS, EXPRESS,  
MONGODB) DEVELOPMENT  
WITH HANDS-ON PROJECTS.

### SKILLS

> Node.js  
> React.js  
> JavaScript  
> Bootstrap  
> Css  
> Html  
> c  
> Git-Github

### ABOUT ME

I am a Full Stack Developer with expertise in React.js, JavaScript, HTML, CSS, Node.js, php,mysql,MongoDB, and Bootstrap. I enjoy creating user-friendly and responsive web applications. My focus is on writing clean code and building smooth, high-performing websites. I have experience in both front-end and back-end development. I love solving coding challenges and continuously learning new technologies to improve my skills.

### PROJECTS WORK EXPERIENCE

#### ADMIN PANEL

DEC-2024

- User Authentication: Implemented Login & Logout system using JWT/Session for security.
- Category & Subcategory Management: Admin can Add, View, and Delete categories and subcategories.
- Backend (Node.js & Express): Used Express routes & Database (MongoDB/MySQL) to handle CRUD operations.
- Frontend (EJS & Bootstrap): Designed dynamic pages with EJS templates and made the UI responsive using Bootstrap.

#### MERN STACK CRUD OPERATION

JAN-2025

- Technology Stack: Built a CRUD operation project using MongoDB, Express, React, and Node.js (MERN Stack).
- Backend (Node.js & Express): Created RESTful APIs to Create, Read, Update, and Delete (CRUD) data.
- Database (MongoDB & Mongoose): Used MongoDB to store and manage data efficiently.
- Frontend (React.js): Designed an interactive UI using React.js, with dynamic data updates.
- API Integration: Used Axios or Fetch API to connect frontend with backend smoothly.

### CERTIFICATION

FULL STACK WEB DEVELOPMENT |  
RED & WHITE INSTITUTE
