ABOUT ME

I am a Full Stack Developer with expertise in React.js, JavaScript, HTML, CSS, Node.js, php,mysql,MongoDB, and Bootstrap. I enjoy creating user-friendly and responsive web applications. My focus is on writing clean code and building smooth, high-performing websites. I have experience in both front-end and back-end development. I love solving coding challenges and continuously learning new technologies to improve my skills.

PROJECTS WORK EXPERIENCE

ADMIN PANEL   DEC-2024

- User Authentication: Implemented Login & Logout system using JWT/Session for security.
- Category & Subcategory Management: Admin can Add, View, and Delete categories and subcategories.
- Backend (Node.js & Express): Used Express routes & Database (MongoDB/MySQL) to handle CRUD operations.
- Frontend (EJS & Bootstrap): Designed dynamic pages with EJS templates and made the UI responsive using Bootstrap.

MERN STACK CRUD OPERATION   JAN-2025

- Technology Stack: Built a CRUD operation project using MongoDB, Express, React, and Node.js (MERN Stack).
- Backend (Node.js & Express): Created RESTful APIs to Create, Read, Update, and Delete (CRUD) data.
- Database (MongoDB & Mongoose): Used MongoDB to store and manage data efficiently.
- Frontend (React.js): Designed an interactive UI using React.js, with dynamic data updates.
- API Integration: Used Axios or Fetch API to connect frontend with backend smoothly.

CERTIFICATION

Full Stack Web Development | Red & White Institute
Front-end (HTML, CSS, JavaScript, React) & Back-end (Node.js, Express, MongoDB) development with hands-on projects.
